

I do not support allowing businesses I already have a relationship with to be able to call me at any time.

The only reason they should call me is if there is a personal matter at hand. NOT because they are soliciting a new offer or promotion to me.

F I want anything additional in our current relationship, I will call them for it.

I do not like solicitation calls of any matter even from my current vendors.

I feel they are a nuisance and a breach of my privacy.

Thank you for your time.
